PRESENTATION

2. Report from Legislative Lobbyist

Peralta Legislative Lobbyist, Patrick McCallum, addressed Trustees regarding Legislative actions affecting education. Introducing this subject, Mr. McCallum explained that he has represented the Peralta district for the past year at the Legislative level as a lobbyist attempting to increase unfunded growth. Peralta received an additional $1.7 million of the $27 million set aside this year for unfunded students. Speaking to community college funding, colleges throughout the state received a 7% increase, received 3% for enrollment growth and receiving a 2.14% COLA. However, the increase in tuition has caused a decrease in enrollment in many college throughout the state; Peralta is not one of those districts.

Lobbyist McCallum next addressed Trustees with regard to significant signed legislation including bills regarding textbooks and facilities. It is recommended that for the community colleges’ 2005/06 budget request: increase of $500 million in ongoing Prop. 98 funds and $53.7 million in one time funds—a 10% increase; significant increase for enrollment growth, equalization and non-credit; restoration of previously-lost funding that includes Partnership for Excellence, without an agreement to modify the K-12 compact with the Governor, and sufficient funding for COLA and enrollment growth.
Mr. McCallum outlined upcoming budget challenges, stating that the Governor's agreement with CTA guarantees COLA plus growth with $800 million to K-12 - Prop. 98 expected to be up $3 billion. For the remainder of the decade, community college enrollments will grow between 3-4%. The Legislature has a history of suspending the Prop. 98 split requirement (Peralta was shortchanged by $6.5 million in 2002/03). Mr. McCallum stated that low revenue districts will continue to push for equalization which does not benefit Peralta; the statutory growth rate is inadequate for community colleges.

In summary, Mr. McCallum stated that the major challenges facing community college finances are Prop. 98 limitations/split, community college funding formula and priorities.

There are also various plans which evolve into grant applications and physical resources plans. Mr. Bielanski addressed Trustees relative to the need for districtwide cooperation, collaboration and communication in order to produce a district plan that successfully educates as many students as possible. The two questions the district plan must ask are: how does this increase district access? and, how well does this make students successful?

ACTION ITEMS (Time Sensitive Items) - Heard at this time

18. Approval of Scope/Budget Increase, New Art Building, Laney College

Approval was requested to increase the scope and project budget for the New Art Building at Laney College. The increased project scope will include:

1. Space to relocate the Art Department currently housed in Laney Building A, so that all art programs will be located in the new building.
2. Foundation design changes.
3. Regulatory requirement changes.
4. Soft cost increases, including consultant fees.
5. Furniture, Fixtures and Equipment (FFE) expenses not included in the original approved budget.

The total estimated increase to the project budget is $4,425,286. The District must fund item #1. The District will seek funding for items #2, 3 and 4 from CalTrans, as they are directly related to the functional replacement of the Art Annex. There is currently no identified funding source for #5, however, some fixed fixtures and equipment may qualify for Measure E funding. Included with Board members’ materials is further information regarding the proposed scope and budget increases. The Chancellor recommended approval.
Chancellor Harris introduced this item by stating that the district was paid $4.5 million by CalTrans for the land currently housing the Art Annex. Cal Trans will use the land for a staging area during the I-880 freeway retrofit. A site on the Laney campus was selected for the relocation of the Art Annex; the site is now being expanded by approximately 4,000 sq. ft. to accommodate Laney’s entire art program. Approximately $1.2 million from Measure E funds will be needed to fund the additional construction, and there will be a delay of approximately four months. General Services Director Ikharo continued that Cal Trans has agreed in principle to absorb the cost of the added piers and additional time to complete the project if it goes beyond their first deadline of December 2005.

In answer to a Trustee question, Mr. Ikharo responded that the new plans must be approved by the State but that approval is anticipated even if Peralta is considered “overbuilt.”
